<i>Forewords</i>	<i>By Elfriede Dustin.....</i>	<i>xvii</i>
	<i>By James Bach.....</i>	<i>xviii</i>
<i>Acknowledgments</i>	<i>.....</i>	<i>xix</i>
<i>Introduction</i>	<i>.....</i>	<i>xxi</i>

## **Part One**

### **In the Beginning:**

<b>Preparing for Automated Script Writing</b>	<b>.....</b>	<b>1</b>
---	--------------	----------

## **Chapter 1 Automated Software Testing Overview** .....3

<i>What Is Automated Software Testing?</i>	<i>.....</i>	<i>3</i>
<i>When to Automate?</i>	<i>.....</i>	<i>5</i>
<i>Project and Personnel Issues</i>	<i>.....</i>	<i>5</i>
<i>Product Issues</i>	<i>.....</i>	<i>6</i>
<i>Additional Test Management Issues</i>	<i>.....</i>	<i>7</i>
<i>Automated Software Testing in the Real World</i>	<i>.....</i>	<i>8</i>
<i>Building a Team for Automated Testing</i>	<i>.....</i>	<i>9</i>
<i>What a Tester Needs to Know about Visual Basic Scripting</i>	<i>.....</i>	<i>10</i>
<i>Test Scripts Are Software</i>	<i>.....</i>	<i>11</i>
<i>Goals of Good Testing Software</i>	<i>.....</i>	<i>12</i>
<i>Creating Successful Testing Software</i>	<i>.....</i>	<i>13</i>
<i>Why Visual Basic?</i>	<i>.....</i>	<i>14</i>
<i>Limitations of Visual Basic for Testing</i>	<i>.....</i>	<i>15</i>

## **Chapter 2 Getting Started with Visual Basic on an Automated Testing Project** .....17

<i>Installing Visual Basic</i>	<i>.....</i>	<i>17</i>
<i>Visual Basic Editions</i>	<i>.....</i>	<i>17</i>
<i>Visual Basic Installation Notes</i>	<i>.....</i>	<i>18</i>
<i>Visual Basic Templates and Wizards</i>	<i>.....</i>	<i>18</i>
<i>Using the Data Form Wizard</i>	<i>.....</i>	<i>19</i>
<i>Using Form Templates</i>	<i>.....</i>	<i>25</i>

<i>Using the Visual Database Tools:</i>	
<i>White Box Testing Using SQL</i> .....	26
<i>The T-SQL Debugger: Inspecting and Testing</i>	
<i>Stored Procedures</i> .....	28
<i>Exploring COM Objects Using the Object Browser</i> .....	30
<i>The Enterprise Tools</i> .....	35

## **Part Two**

### **The Second Stage:**

<b>Introduction to Automated Script Writing</b> .....	37
---	----

## **Chapter 3 Introduction to the Visual**

<b>Basic Development Environment</b> .....	39
--	----

<i>Objectives</i> .....	39
<i>Visual Basic History</i> .....	40
<i>Getting Started with Visual Basic</i> .....	41
<i>Starting Up Visual Basic</i> .....	41
<i>Using Visual Basic's Five IDE Windows</i> .....	43
<i>Visual Basic Application Development</i> .....	45
<i>Working with the Properties Window</i> .....	48
<i>Writing Visual Basic Code</i> .....	55
<i>Saving Your Visual Basic Program</i> .....	60
<i>Visual Basic Help</i> .....	62
<i>Customizing the Development Environment</i> .....	67
<i>Exercise 3-1. A Very Simple Program</i> .....	70
<i>Activity One: Creating the Very Simple Program</i> .....	70
<i>Activity Two: Using a Message Box</i> .....	71
<i>Activity Three: Adding a Control</i> .....	73
<i>Activity Four: Saving Files</i> .....	74
<i>To View the Suggested Answer to This Exercise</i> .....	74
<i>Exercise 3-2. Adding Controls and Setting the Tab Index</i> .....	75
<i>Tester's Checklist</i> .....	79
<i>Chapter 3 Review</i> .....	80

## **Chapter 4 Understanding Visual**

<b>Basic Application Essentials</b> .....	81
---	----

<i>Objectives</i> .....	81
<i>Understanding Objects, Properties, Events, and Methods</i> .....	82
<i>Understanding Properties</i> .....	83

Understanding Events .....	86
Understanding Methods .....	87
Understanding the Difference between Events and Methods .....	89
Procedural Programming versus Event-Driven Programming .....	90
The Debugger .....	93
Exercise 4-1. Using the Debugger to Understand Events .....	95
Coding Mechanics .....	96
Object Naming Conventions .....	97
Coding Conventions .....	98
Declaring and Using Variables .....	100
Identifying Shortcuts and Old Code .....	107
Local-Level, Module-Level, and Application-Level Variables .....	108
Understanding Scope and Lifetime Variables .....	111
Understanding Option Explicit .....	113
Constants .....	115
Using Branching Statements .....	117
Programming with Loops .....	119
Code Review Practice .....	122
Using the Shell Function to Run One Program from Another .....	124
Creating an Executable File from a Visual Basic Project .....	126
Exercise 4-2. Information Please .....	128
Tester's Checklist.....	132
Chapter 4 Review .....	133

## Part Three

### Beyond the Basics: Now You're Testing! .....135

#### Chapter 5 Creating Test Utilities .....137

Objectives .....	137
Creating and Using Procedures .....	138
Planning Your Procedures .....	138
Creating and Using Subroutine Procedures .....	140
Using Arguments .....	143
Understanding Function Procedures .....	147
Procedure Scoping .....	150
Creating and Using Standard Modules .....	151
Adding Existing Modules to Projects .....	153
Understanding Form Modules .....	155
Displaying Forms .....	157
Exercise 5-1. Adding a New Form Module .....	159
Creating a Logging Utility .....	160

File Handling .....	161
Using The Microsoft Scripting Library to Access Files .....	162
Setting a Reference to the Scripting Library .....	162
Simple GUI Testing Using SendKeys .....	169
Adding Timing to Your Tests .....	171
Using the Timer Control .....	172
Documenting Your Tests .....	174
Exercise 5-2. Testing the Calculator .....	176
Tester's Checklist .....	182
Chapter 5 Review .....	182

## Chapter 6 Testing with the Windows Registry .....183

Objectives .....	183
Introduction to the Windows System Registry .....	184
Creating and Saving Application Settings .....	187
Retrieving Visual Basic Application Entries .....	190
Retrieving Single Registry Settings .....	190
Retrieving Multiple Settings .....	191
Arrays and the GetAllSettings Function .....	195
Displaying Multiple Values Using List Boxes .....	197
Deleting a Registry Setting .....	199
Error Trapping .....	200
Using the ERR Object .....	202
Accessing Other Registry Keys .....	204
Exercise 6-1. Creating a Registry Management Utility .....	205
Follow These Steps to Write the Code (Or Try It on Your Own) .....	206
Tester's Checklist .....	209
Chapter 6 Review .....	210

## Chapter 7 Introduction to the Windows Application Programmer's Interface (API) .....211

Objectives .....	212
Windows API Overview .....	212
Understanding Static and Dynamic Libraries .....	212
The Windows API Dynamic-Link Library Files .....	214
Exploring the Windows API Routines .....	215
Useful APIs for Testing .....	216
Using API Routines .....	216
Steps to Call a Windows API Routine .....	216
Calling API Routines with User-Defined Type (UDT) Arguments .....	219

<i>Using Windows API Functions for the Registry .....</i>	<i>222</i>
<i>Exercise 7-1. Get Your Platform's Version .....</i>	<i>227</i>
<i>Working with the Windows API: Beyond the Basics .....</i>	<i>231</i>
<i>Understanding Windows API Arguments .....</i>	<i>231</i>
<i>Understanding the Any Keyword .....</i>	<i>234</i>
<i>Understanding Aliasing .....</i>	<i>234</i>
<i>ANSI versus Unicode .....</i>	<i>235</i>
<i>API Return Values and the Meaning of True and False .....</i>	<i>235</i>
<i>Writing API Wrappers .....</i>	<i>237</i>
<i>Windows API Examples for Testing .....</i>	<i>239</i>
<i>Calling Other DLL Procedures .....</i>	<i>248</i>
<i>Exercise 7-2. Using Advanced API calls.....</i>	<i>249</i>
<i>Additional Work .....</i>	<i>251</i>
<i>Tester's Checklist .....</i>	<i>252</i>
<i>Chapter 7 Review .....</i>	<i>252</i>

## **Part Four**

### **Advanced Topics in Automated Test Scripting.....253**

#### **Chapter 8 Introduction to Database Testing.....255**

<i>Objectives .....</i>	<i>256</i>
<i>Database Application Testing</i>	
<i>Using the Visual Database Tools .....</i>	<i>256</i>
<i>Using the Data View Window .....</i>	<i>257</i>
<i>Using the Query Builder Window to Execute Database Queries .....</i>	<i>261</i>
<i>The Data Environment Designer .....</i>	<i>264</i>
<i>Testing Databases Using ActiveX Data Objects (ADO) .....</i>	<i>264</i>
<i>Understanding ADO Architecture Basics .....</i>	<i>266</i>
<i>Using the Connection Object .....</i>	<i>268</i>
<i>Using the Recordset Object .....</i>	<i>270</i>
<i>Revisiting the ODBC Logon Form Template .....</i>	<i>274</i>
<i>Testing SQL Server Databases Using COM.....</i>	<i>278</i>
<i>The Many Ways to Test Databases Using Visual Basic .....</i>	<i>282</i>
<i>Exercise 8-1. Querying a Database Using</i>	
<i>Visual Database Tools and ADO .....</i>	<i>283</i>
<i>Exercise 8-2. Adding Test Data .....</i>	<i>289</i>
<i>Exercise 8-3. Testing Using SQL-DMO .....</i>	<i>291</i>
<i>Tester's Checklist .....</i>	<i>292</i>
<i>Chapter 8 Review .....</i>	<i>292</i>

<b>Chapter 9 Introduction to Testing COM Components .....</b>	<b>293</b>
Objectives .....	294
COM Basics .....	294
Understanding COM Classes .....	295
Understanding COM Collections .....	296
Working with an Established COM Library .....	297
Coding for COM .....	300
Creating a Class .....	303
Creating Simple Class Properties .....	304
Creating Class Properties Using Property Let and Property Get .....	306
Converting a Class into an ActiveX Component .....	310
Exercise 9-1. Creating a Test Bed Using COM .....	317
Testing COM Objects .....	328
Basic Steps to Test COM Objects .....	328
Case Study: Testing the Housing COM Object .....	329
Test Case ID: HSG01 Verify Computation of ComputeRentFee Method .....	332
Working with Collections .....	338
Case Study: The Invoices Project—Testing Collections .....	340
Exercise 9-2. Testing a COM Object .....	344
Test Case ID: INV1 .....	346
Distributing COM Components .....	348
COM Components and DCOM .....	348
Summary .....	354
Tester's Checklist .....	355
Chapter 9 Review .....	356
 <b>Chapter 10 Testing the Web with Visual Basic .....</b>	 <b>357</b>
Objectives .....	357
Web Site Testing Basics .....	358
Static Page Testing .....	359
Using the Microsoft Internet Transfer Control .....	360
Returning Raw Data from a Web Page .....	363
Testing ASP .....	367
Using the WebBrowser Control .....	369
Detecting Errors .....	380
Adding a Menu to Your Project .....	381
Using the Common Dialog Control in Your Project .....	386
An ASP Testing Utility .....	390
Considerations for Databases .....	396

<i>Additional Resources for Web Testing</i> .....	397
<i>Introduction to VBScript</i> .....	399
<i>VBScript Essentials</i> .....	399
<i>Accessing Objects with VBScript</i> .....	402
<i>Tester's Checklist</i> .....	405
<i>Chapter 10 Review</i> .....	406
 <b>Chapter 11 VB.NET: Brave New World</b> .....	407
 <b>Introduction to VB.NET</b>	
<b>by Gary Cornell and Jonathan Morrison</b> .....	411
<i>Visual Basic Then and Now</i> .....	411
<i>The Versions of Visual Basic</i> .....	412
<i>The .NET Mentality Shift</i> .....	413
<i>The Common Language Runtime</i> .....	414
<i>Completely Object Oriented</i> .....	414
<i>Automatic Garbage Collection: Fewer Memory Leaks</i> .....	415
<i>Structured Exception Handling</i> .....	415
<i>True Multithreading</i> .....	415
<i>Why You Will Need to Learn a Whole</i>	
<i>Lot of New Concepts to Use VB.NET</i> .....	415
<i>Should You Use C# and Not Bother with VB.NET?</i> .....	417
 <b>The VB.NET IDE: Visual Studio.NET</b>	
<b>by Gary Cornell and Jonathan Morrison</b> .....	419
<i>Getting Started</i> .....	420
<i>Creating a New Solution</i> .....	421
<i>A Tour of the Main Windows in the IDE</i> .....	424
<i>The Editor</i> .....	426
<i>The Solution Explorer</i> .....	430
<i>Properties Window</i> .....	432
<i>References and the Reference Window</i> .....	433
<i>Output Window and Command Window</i> .....	434
<i>Working With a Solution</i> .....	435
<i>Adding Projects to a Solution</i> .....	440
<i>Compiling</i> .....	442
<i>Multiple Compilations</i> .....	443
<i>Build Options</i> .....	446
<i>Debug versus Release Versions</i> .....	447
<i>Output Files</i> .....	448
<i>Debugging in VB.NET</i> .....	448
<i>New Debugger Features</i> .....	449

<b>Chapter 12 From Tester to Tester:</b>	
<b>Advice to the Visual Basic Automator .....</b>	<b>453</b>
From Jason Herres .....	454
From Lee Wallen .....	454
From Harvin Queen	
(Technical Reviewer for Visual Basic for Testers) .....	455
From Dan Hodge .....	456
From Kevin Ingalls .....	457
From Marshall Peabody .....	458
From Alan Corwin .....	458
From Elisabeth Hendrickson .....	459
General Recommendations and Lessons Learned .....	460
Conclusions .....	462
 <b>Appendixes.....</b>	 <b>463</b>
 <b>Appendix A Resources and References .....</b>	 <b>465</b>
References .....	465
Testing Books .....	465
Visual Basic Books .....	466
General Software Design and Development .....	466
Articles/Journals/Periodicals .....	467
Web Articles Referenced .....	467
Resources .....	468
Recommended Testing Web Sites .....	468
Recommended Visual Basic Web Sites .....	469
Recommended Database Design and SQL Resources .....	469
Recommended Web and ASP Resources .....	470
Recommended Testing Publications .....	470
Recommended Visual Basic Publications .....	470
 <b>Appendix B More Controls .....</b>	 <b>471</b>
Option Buttons and Checkboxes .....	473
The Frame Control .....	476
The Combo Box Control.....	476
Even More Controls .....	478

<b>Appendix C File Access and Management .....</b>	<b>479</b>
File Management in Visual Basic .....	479
Standard File Access .....	480
The Sequential File .....	482
Writing to a Sequential File .....	482
Reading a Sequential File .....	483
The Random Access File .....	485
Writing to and Reading from a Random Access File .....	486
The Binary Access File .....	487
 <b>Appendix D Required Reading:</b>	
<b>Automated Testing Essays .....</b>	<b>489</b>
About the Authors .....	489
Seven Steps to Test Automation Success	
by Bret Pettichord.....	490
Test Automation Snake Oil	
by James Bach.....	511
Advice for Automated Testers Learning Visual Basic	
by Elisabeth Hendrickson.....	519
 <b>Index .....</b>	<b>521</b>
